The MASSIVE third album from San Diego metal stalwarts Mechanization has arrived! Blasting through your soul with eleven neck disintegrators, “Solipsism” delivers the goods.

Conceived and produced over several agonizing months of mid-70’s San Diego weather, this beer-fueled metal romp follows the story of a hero leading his people through a war threatening his home land.

Much like any Slayer album, you know what you’re getting with Mechanization’s third offering. Their Scandinavian influences heavily on display, Mechanization tears through your sphincter with a deathful thrash of guitars and iron-willed roars. “Solipsism” is the amalgamation of every nightmare Adele and Kanye ever survived (unfortunately). Each track carries with it an honesty that reminds you why you fell in love with metal. This record harvests the lost souls of Dio, Lemmy and Hetfield (before he died in 1992) and resurrects their spirits with the fearless brutality of rabid honey badgers. Without warning you’ll undoubtedly be raging in your Prius on the way to your cubicle prison and finding yourself one step closer to throat-punching any person that misunderstands why you listen to music with guitars.

Prepare for swords to fall from on high where high-fives are aplenty. Follow Terrence and HMT through their metal alter reality—“Solipsism”!

SEE YOU AT THE PARTY, RICHTER!
